

# HAAS STORYBOARD

Dear Friend,

As family gatherings approach, we've been challenged to grow in two things, thankfulness (celebrating God's past goodness) and hunger (desiring more from our loving Heavenly Father). At the end of November, Holly's brother Danny hosted "Thanksmas" with the Beech family in Charleston, South Carolina. The week of Christmas, we've invited both sets of parents to join us in Cary, North Carolina. We pray for safe travels and that you have joyful celebrations with loved ones. Here's how God has been advancing your ministry (and we say "your ministry" as it only exists through your support):

## Share the Story Picks Up Steam

Early this year, TWR MOTION finished a third dialect of Arabic for the animated 20 episodes to provide scripture access to millions more people across the Arab world. In August, *Share the Story* (STS) celebrated the launch of the Flemish language for Arab refugees in Europe. As millions of people flee conflict-torn countries in the Middle East, they're required to learn the language of the European country where they are applying for permanent residency. On the same date at the end of October, the Central Asian Russian project was completed and French recordings were received. Andrew is helping Hannah McGurk (who studied French) step into the role as producer on this language. We've put together a compilation of all six so you can hear every recorded version of STS so far. For a multi-lingual story of the angels announcing Jesus' birth to the shepherds, visit [vimeo.com/twrmotion/sts-6-languages](https://vimeo.com/twrmotion/sts-6-languages).

## Friendly Pirates

More than eight field partners are working on new STS projects in various stages of development. One language is Indonesian, national language of the world's largest Muslim nation. We looked for a translator for months when suddenly someone tipped us off that eight episodes had been produced by a local missionary without permission. We quickly reached out to this "pirate" and asked how they had made progress so quickly. Their unofficial production is rough and incomplete but we admire the can-do attitude and asked their help and advice as we translate, record and deliver a high-quality version in this language. The Indonesian project is doubly exciting because it will probably serve as a starting point to translate STS into key heart languages across this island nation.

In our commitment to serve and learn, three members of TWR MOTION traveled to Orlando in September to meet with some of the church planting teams using social media for discipleship. We learned together from a marketing expert and broke into four teams to write advertisements in the language of each audience to help catch the eye of seekers looking for hope on Facebook and YouTube.

## Mozambique, Here We Come

Our church (Antioch Raleigh) with our sister church in western North Carolina (Antioch Boone) just announced a major outreach in 2022 to southern Africa. Dozens of adults will gear up for terms of service from two weeks to three months in Beira, a key port city. Holly is coordinating with both USA churches, a church in Beira and a local ministry in Mozambique. We're helping applicants prepare to raise support and minister cross-culturally. We will share more information next year and appreciate your prayers in the meantime for the planning and travel next May through August.

As Antioch Raleigh missions director, Holly is planning the project with wonderful people like medical missionary Tracy Evans (pictured) the founder of iReach Africa. During the last 17 years in Africa, Tracy's team has planted 22 churches and provided daily nutrition and medical care for more than 7,000 at-risk orphaned babies, many with AIDS.

Please pray for the church in Mozambique this month and that Antioch's involvement next year would be a huge blessing to local churches and missionaries across the region.

Merry Christmas,

*Andrew & Holly*
